

California Community Colleges Guided Pathways

Creating a Lasting Guided Pathways (GP) Movement on Your Campus

You spoke, we listened! The Chancellor’s Office is presenting a second set of GP workshops built around your questions and feedback from the fall. This workshop is highly interactive and includes breakouts on:

- The “why, what, and how” of GP
- What are the stages of GP implementation?
- Designing GP with the end in mind
- GP Movement building

And more!

February 27–28

[Fresno](#), in partnership with the Central Valley Higher Education Consortium

March 1–2

[Oakland](#), in partnership with the Bay Area Community College Consortium

What Will You Get Out of This Workshop?

- Practice answering key GP questions that arise at your college
- Learn concrete techniques from CCC experts to co-create Guided Pathways with your campus colleagues
- Engage your college team in action planning and facilitated support for advancing your GP work plan (optional)
- Interact directly with experienced GP practitioners to get your questions answered

Who Should Attend?

Sending an intentional team is an important part of your GP strategy! Cross-functional teams—diverse groups of people who carry different areas of institutional expertise—are at the heart of many successful guided pathways efforts across the state and the country.

A cross-functional campus team is recommended, including:

- CEO
- CIO
- Deans, Middle-level Instructional Leaders
- VPSS
- Student Services Deans/ Counselors
- Academic Senate Member(s)
- Faculty
- Classified Professionals
- Career Technical
- Student Representatives

“ These workshops give us **opportunities** to have more structured time for everybody to be focused on one topic. And often times we get some fairly substantial “a-ha’s” or **momentum** that gets built up that we can take back to campus and **move something forward.** ”

- Heather Ostash, Vice President of Student Services, Cerro Coso Community College
