1. Welcome/Introductions
2. Mapper Update – Our district was not accepted into the Mapper Pilot Project, but may be able to enter later. It was recommended that a college should have approximately 70 programs mapped to enter the pilot.
3. Sierra College Website - <https://www.sierracollege.edu/> - Review of website to think about how we may want to structure our information as we develop our maps and areas of interest.
4. Pathways Retreat
 - a. A joint venture between Clear Program Requirements and Guided Major & Career Exploration Opportunities workgroups.
 - b. Proposed dates – recommended that it be held after the add/drop period so counselors will be available. Possibly in early February, 2019.
5. On-campus Workshops
 - a. Proposed workshops included the following: Cross Discipline Discussions, Faculty Counselor Discussions, and Program Mapping.
 - b. Any other ideas – Recommended that discussions could be broken down by school and then department with counseling liaisons. Maybe one for CTE specifically.
 - c. Suggested dates and times – Counseling busy between 10/29-12/10.
6. Professional Learning Opportunities – No comments
7. Next Meeting – As the November 13th conflicts with President's Cabinet Retreat, our next meeting was rescheduled to Wednesday, November 7th.
